

McGill University holds a Pediatrics Subspecialty Match yearly.

McGill can accept applicant files by the March 1, 2011 application deadline for a July 1, 2012 start date for the following programs:

2 year programs: Allergy/Immunology, Critical Care, Emergency Medicine, Endocrinology and Metabolism, Gastroenterology, Neonatology, Nephrology, Developmental Behavioral Pediatrics Adolescent Medicine; General Pediatrics (1 year for non-Quebec applicants), Respiriology and Rheumatology; Infectious Diseases.

3 year programs: Cardiology, Hematology-Oncology, Microbiology and Infectious Diseases.

*\*Please note that only files for the Pediatric Subspecialty programs are being reviewed at this time.*

- We ask that all applicants apply on-line and the Bureau forward complete files to our office by **March 1, 2011**.
- Please note that McGill is unable to consider incomplete files.
- Applications to the programs listed above (whether complete or incomplete) received after the **March 1, 2011** deadline will not be considered for the 2012 academic year.

To apply on-line, please complete the online application available on the following web link:  
[http://www.medicine.mcgill.ca/postgrad/admission\\_applyonline.htm](http://www.medicine.mcgill.ca/postgrad/admission_applyonline.htm)

Only **PDF files** sent directly to the Postgrad Admissions Office from the Bureau are considered acceptable. Also, please note that all communications (i.e. decisions, offers, interviews, outstanding documents etc.) will be channeled via our office. This applies to all communication from applicants to McGill as well as applicants who contact departments directly.

A complete file consists of the following documents:

- a) A transcript of academic courses in medical school and a copy of the Internship certificate.
- b) Copy of the Medical Degree.
- c) Three **recent** letters of reference (reference letters cannot be from relatives and the sponsor needs to verify validity of the referee).
- d) A brief curriculum vitae.
- e) A personal statement, which clearly outlines why the applicant wishes to apply to the program.
- f) Proof of having successfully passed the USMLE exams (steps 1 and 2) and/or the Evaluation Exam of the Medical Council of Canada (MCCEE) and/or copies of statements of results.
- g) Attestations and evaluations of all previous postgraduate training (for applicants applying from a Medical School in Canada or the United States)
- h) Sponsorship Letter: Proof of scholarship granted by the agency concerned and with whom there is an exchange program in force. All other scholarships will be refused.
- i) A certified copy of the passport (first 3 pages). The University must be notified of any change of legal status in Canada by the trainee
- j) Affidavit to return home: Written commitment to return to the country of origin at the end of the approved training period. The candidate must attest to the fact that he/she has no intention to apply for permanent resident status or licensure/certification examinations in the Province of Quebec. This is in order to meet the Provincial Medical Manpower Policies
